

P 3/4

Our class thoroughly enjoyed our last unit of inquiry where we investigated what inspired artists and how they developed their style. We experimented with different techniques and came up with some cool pieces of art. We rounded off our unit with a class presentation for our parents.

REFLECTIONS

I enjoyed the pointillism best. If I was an artist I think my style would be dots. because I made my favourite piece of art by taking an ear bud and dipping it in the paint to make dots.

(Jonny)

I liked the collage and Aboriginal art the best because they were fun activities. I was upset because my paper mache broke. I learn't that Paul Cezanne painted a lot of realistic pictures and that he was the father of modern art.

(Sarah)

My favourite thing was collage because you can make anything with paper. It was fun I wish we could do it again. My favourite artist is Leonardo da Vinci because he drew the Mona Lisa and the Last Supper

(Mohammed)

I found the biography challenging because I didn't have time to finish it. My favourite art is modeling because you can make anything and I got to take it home. I enjoyed the Aboriginal art.

(Jonas)

I found Aboriginal painting hard because your hands get tired. I liked Aboriginal art because you can make lots of things. My favourite artist is Pablo Picasso because he was the founder of abstract paintings.

(Floris)

I like art because you can do whatever you want in your picture. In collage we used paper, material, glue and scissors. My favourite one was a moon.

(Nell)

NEWSFLASH!! The children are in the process of designing their own magazines for our current unit of inquiry. Look out for the limited editions coming out soon!
